Information

Big Data Collection in detail level

Big Data Processing for multiple purpose

Connected Manufacturing

SCM Warehouse Production HR Manufacturing Logistics Sourcing Quality IT

Actions

Targeted Production – Visual Factory System

1. When Line 4A has material Shortage or Machine Problem, just press a Button

2. Automatically the system will communicate to Material or Maintenance Team. If the support team is not available it will escalate to next level

3. Control Room monitors displays the exact shop floor line layout and line status. If the line has problem it will display it visually & also current status of the problem

4. Monitor and Log all the statuses and problem and provide the visual dashboards to help to prevent reoccurring problems

Applications

Actions

Actions

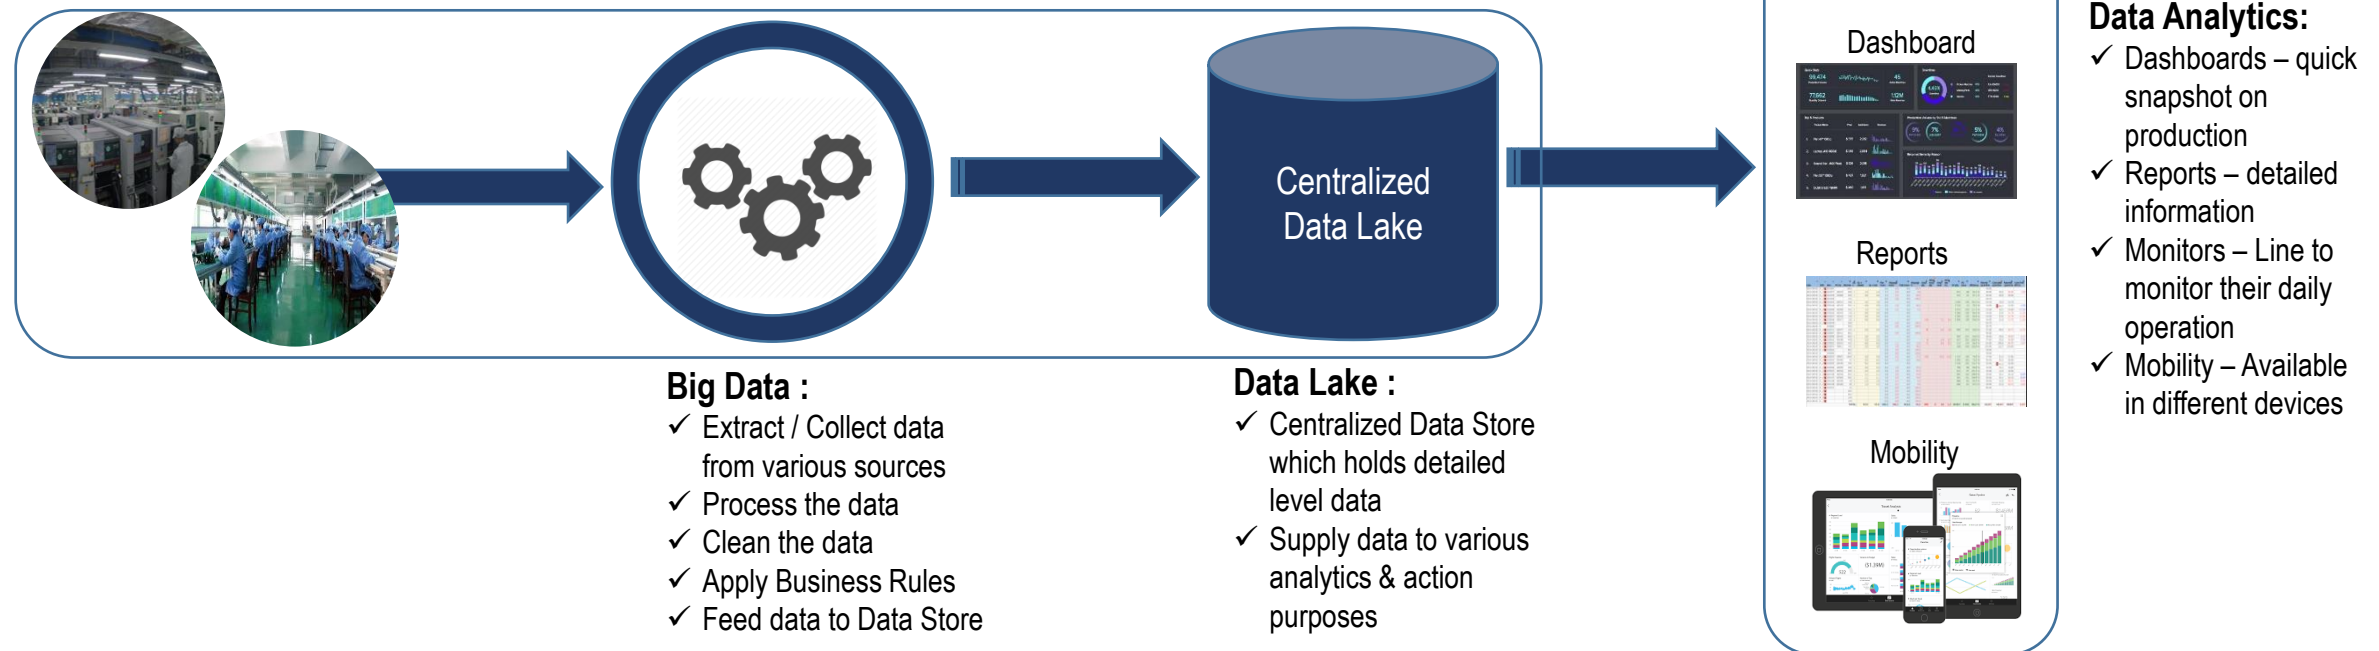

Analytics

Targeted Production – Big Data & Data Analytics

- Big Data Collection from different sources
- Data extraction -> Factory Level, Level VI / Level X level, Product Level, Line Level
- Information availability from Management to Line Levels
- Enhanced Data Analytical Capabilities
- Mobility - Dashboards & Reports available in different devices

Connected Manufacturing

- Data Capture from
 - SMT Data from machines
 - IoT Sensors data for temperature, noise & vibration
 - SUSE data
 - FUSE Data
- Connected Devices and Sensors

- Machine Learning Algorithms for building “Failure Model” to alert while threshold parameters are crossed
- Effectively Maintain assets
- Reduce Asset Maintenance Cost & Risk
- Preventive Maintenance Alerts
- Drop Management System to utilize high-cost materials while it fell down during the Robotic Process

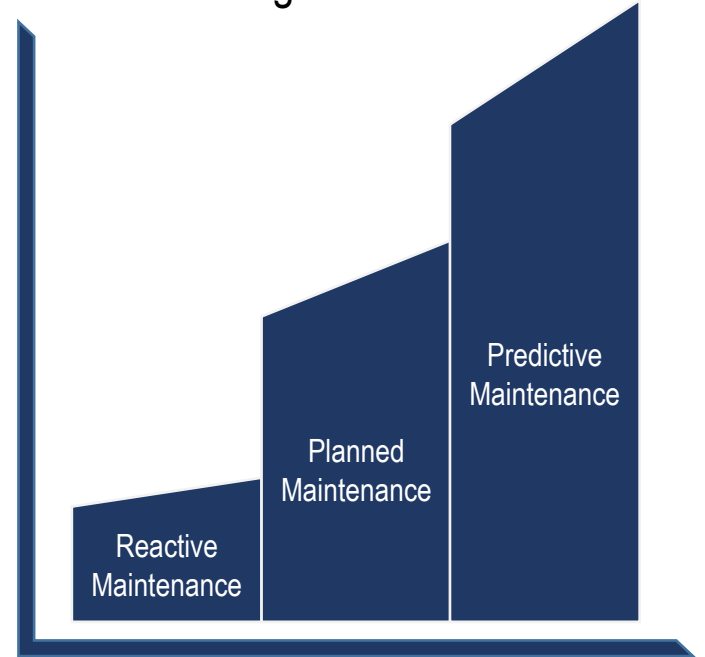

SMT Machine Data

IoT Sensors

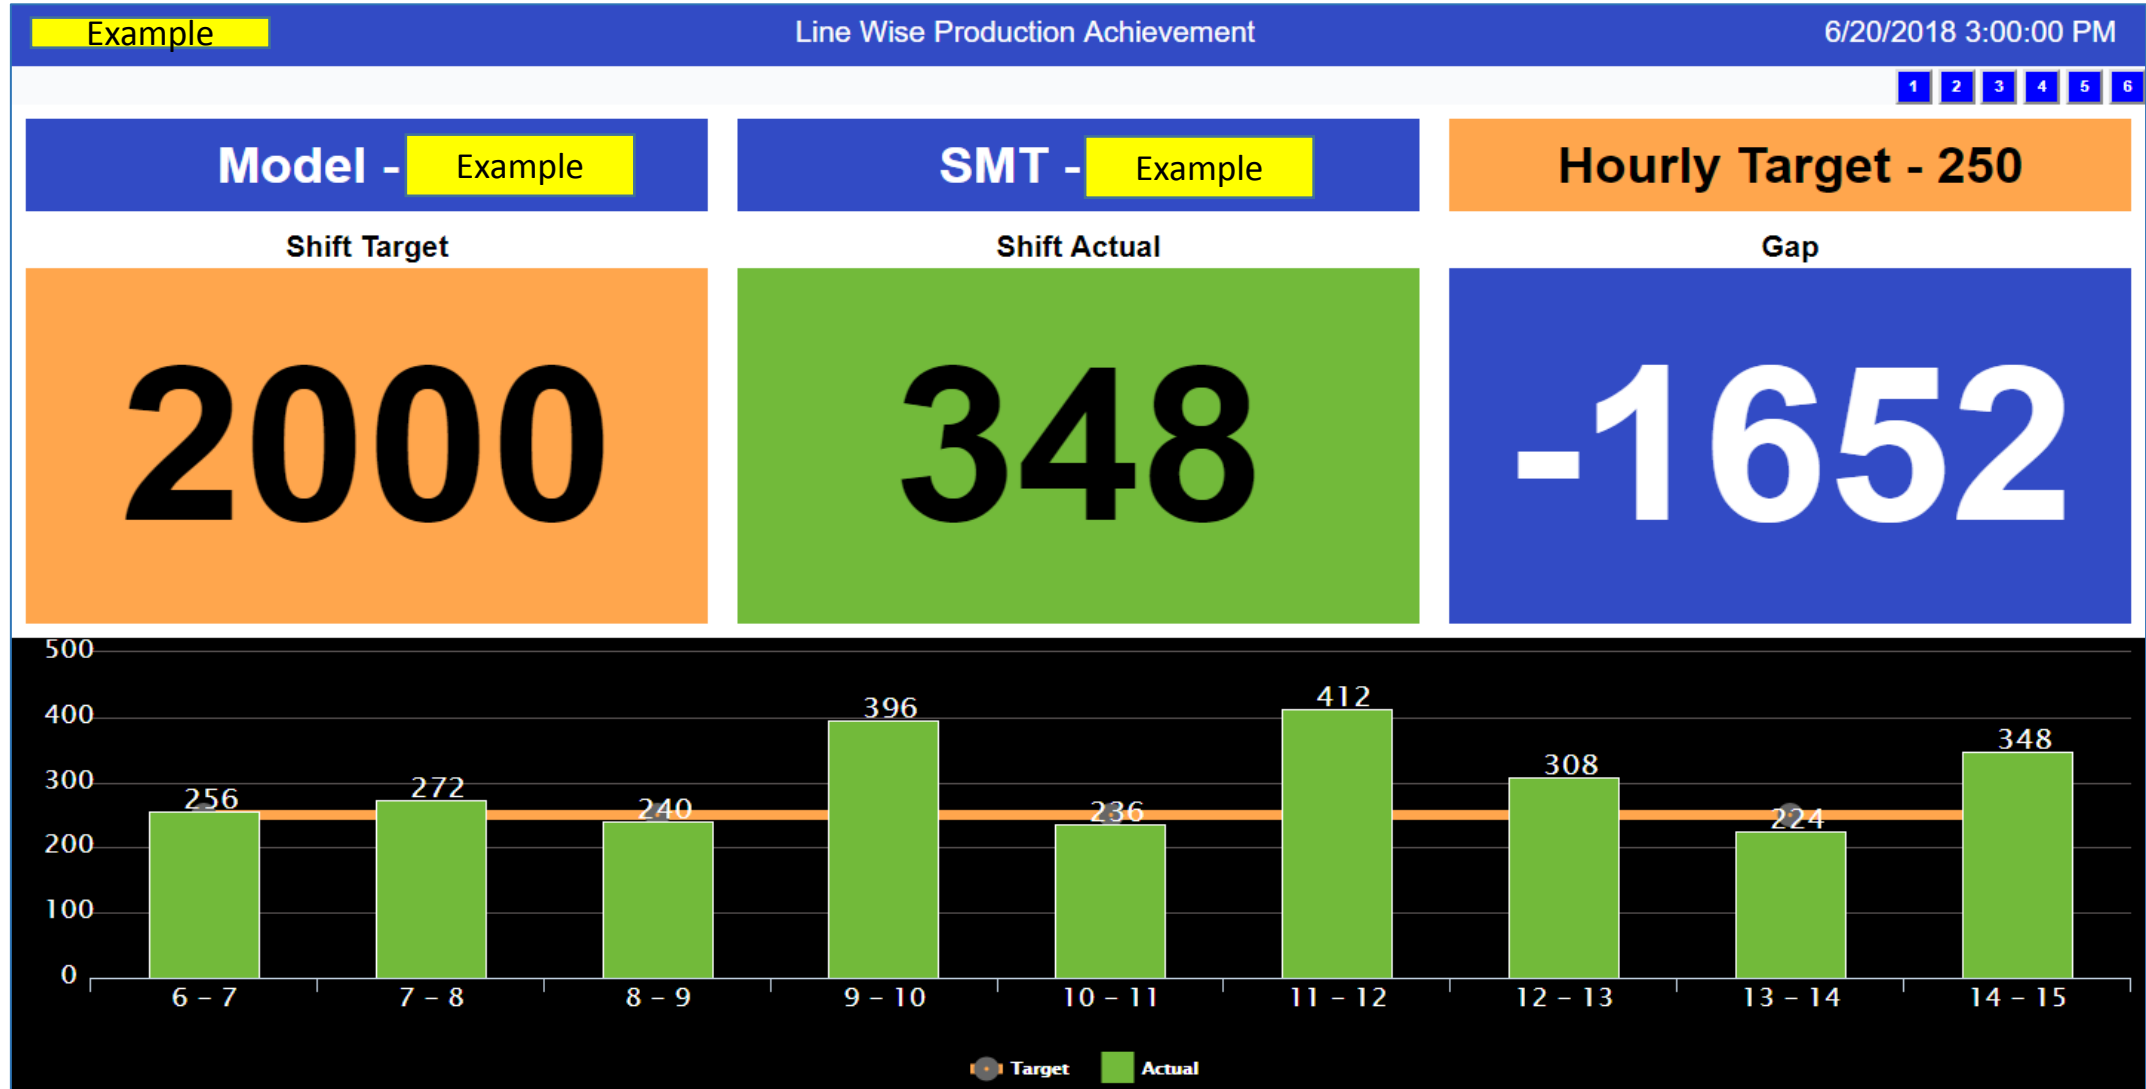

Machine Learning Algorithms

Effective Equipment Management

Example - Attrition Report

Seniority based head count with attrition %

Age wise head count with attrition %

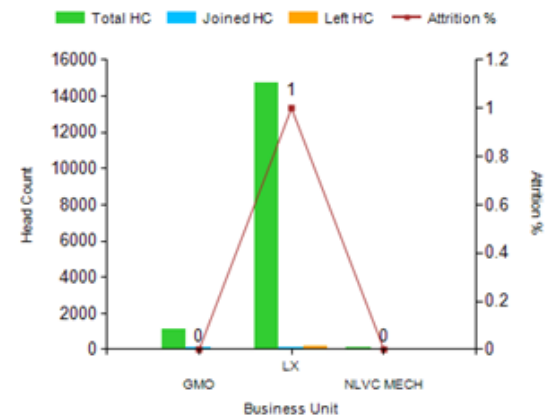

Location wise left count

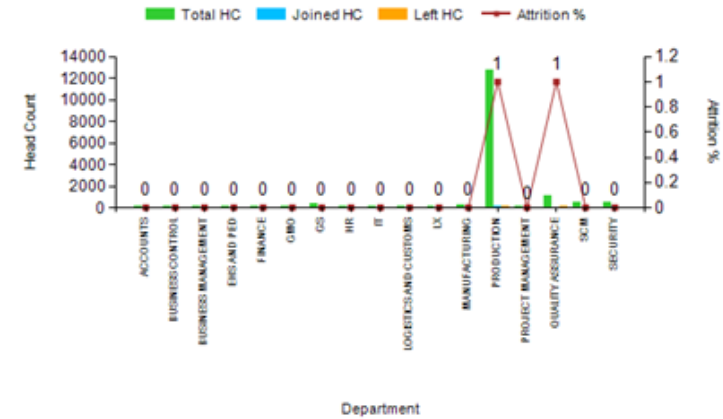

- Agravaram
- AMBATTUR
- AP - Crompt
- AP - Putthur
- AP - Annamalaichery
- AP - Bathlavaram - Hostel
- AP - Beerakkuppam
- AP - BN Kandriga
- AP - BN Kandriga Via Pandur
- AP - CMBT - General
- ...

Labour Type	Total HC	Joined HC	Left HC	Attrition %
DL	14207	123	176	1%
DL2	1140	14	0	0%
IDL	518	0	0	0%

BU wise head count with attrition %

Department wise head count with attrition %

Smart Office

- Paperless office
- Enhanced Workflow applications
- Mobility – Easy accessibility of applications
- ESS – Employee Self Service System
- Leave Management
- Pay Slip
- MSS – Manager Self Service System :
All forms & approval flow will be converted to online
