

FIRST INFORMATION

17th Global Quality Convention

Rise of India – Towards Global Excellence

15th & 16th September 2023

15th & 16th September 2023

Chennai Trade Centre,
Chennai, Tamil Nadu, India.

About the convention:

National Institution for Quality & Reliability (NIQR) has infused knowledge, skill, and competency in Indian industries across various domains, including business excellence, quality, and reliability, since 1987.

NIQR serves organizations to sharpen their competitive edge continuously. In addition, it envisions the trends and future for Indian businesses across the globe and pools the knowledge of industry captains required to adapt to the changes and deliver it to other industries in various national and international forums.

NIQR's quality conventions are platforms through which knowledge is disseminated on a massive scale by roping in "Thought Leaders" of the entire spectrum of Indian Industries.

NIQR has successfully organized 16 such quality conventions in the past.

This 17th Global Quality Convention is designed with the theme "**Rise of India – Towards Global Excellence**". With a young, energetic, and talented workforce, Indian organizations have tremendous potential for global growth. With its recognition in quality spectrums during the last two decades, India significantly impacts the global economy.

This convention will bring out opportunities for the younger generation to Raise India as a Global Leader through the success stories of Indian industries.

An exhibition to showcase the products and services of Indian Industries is also arranged for the delegates and public.
