to me, rangaikpm

Dear Sir,

Here is my brief profile.

Raghu is a technology thought leader, innovator in the AI & Analytics space and one of the few protagonists of AI & "Actionable Business Insights" and has more than 30 years of experience in the IT industry. Raghu is a Sen Director leading Differentiating Delivery Office @ Cognizant and implemented variety of ideas/use cases of Gen AI & AI Enabled Delivery. Raghu has advised and architected business-focused enterprise data lake strategies and programs for Fortune 500 companies helping them realize ROI on their investments. Led AI & Analytics Healthcare practice 3800+ team members across different countries, client locations and delivery centers. He has been responsible for charting account plans. He has experience of running large business transformation programs for customers. Have helped Healthcare, Financial Services, Energy & Utilities Fortune 500 customers over last 30+ years. Raghu networked with many BI professionals and kickstarted TDWI India Chapter in 2006. Many of Raghu's articles are published in International magazines & Websites

Thanks for the opportunity to talk on your conference. I would talk on criticality of quality assurance and how we can ensure high quality deliverables for Data & Analytics through ML in QA and QA in ML.

Thanks
Raghu
